

'Classic Gate' is an all aluminum foot grille option that is technically far more superior, elegant, heavy duty and tailor-made to your requirements. 'Classic Gate' is extremely effective in areas prone to severe weather conditions like snow, sand, rain, hail storms, etc.

'Classic Gate' is suitable for Schools, Universities, Hospitals, Public Buildings, Hotels, Commercial Buildings, Metro Stations, Terminals, Cinemas, Residential Buildings, Shopping Malls and Banks.

'Classic Gate' is suitable for high volume of pedestrian traffic more than any other mat. Linear mat design provides aggressive scrapping action.

'Classic Gate' is heel and wheel proof and does not promote fungal / bacterial growth.

PROSPEC 'Classic Gate' is maintenance free and looks brand new for years.

Suitable for interior or exterior application.

Effective way of intercepting water and snow.

Linear visual effects of 'Classic Gate' enhances the aesthetic value of the building.
