

'Stelex' is elegant and extremely heavy duty entrance grid system and tailor made to your design requirements. The stainless steel foot grille with alternating spring carpet wipers system is designed to improve cleaning process and lower maintenance cost.

'Stelex' is suitable for Schools, Universities, Hospitals, Hotels, Commercial Buildings, Cinemas, Shopping Malls, Banks and all those places where heavy pedestrian and wheeled traffic is expected.

'Stelex' has open construction to trap dirt and sand. The top of the grid always remains clean, does not fade and shed fibers rot or smell when wet. Surface grille are uniformly spaced with alternating spring carpet offering safe support for wheel chairs, shopping carts, high heels, crutches, etc.

Prospec 'Stelex' is available in stainless steel foot grille and heavy duty spring carpet wipers, require minimum maintenance and looks brand new for years. The combination of spring carpet wipers and foot grille design provides aggressive scraping action.

Linear visual effects of 'Stelex Grate' enhances the aesthetic value of the building.
