

Product and Company Identification

Product Name: AK Series  
 Manufacturer's Name: Prospec Specialties Inc.  
 Suite 400, 3601, Highway 7,  
 Markham ON, L3R 0M3, Canada  
 Emergency #: (888) 749-8456  
 Date Prepared: June, 2013

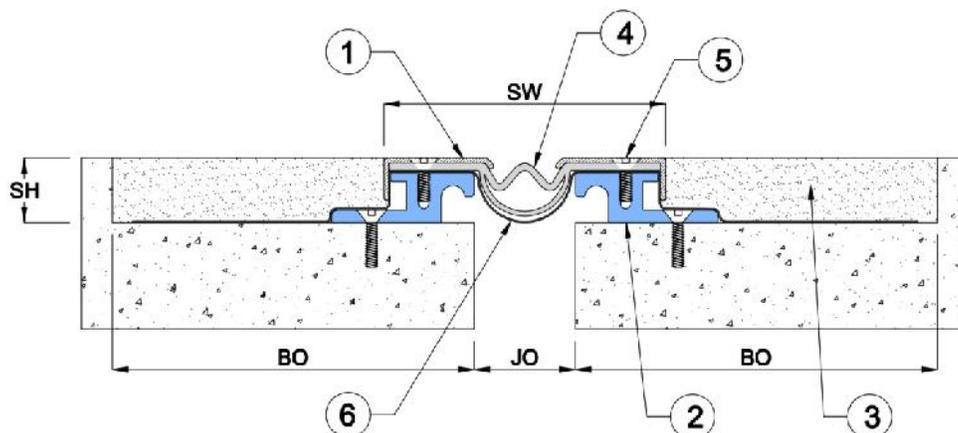

Table 1: System Details

Application	Code	JO	SH	SW	BO	± Movement (%)		Load (Ton)
		Millimeter				Horizontal	Vertical	
Straight ( S )	AKS 01	25	35	122	210	50	50	5
	AKS 02	51	35	143	210	50	50	5
	AKS 03	76	35	170	210	50	50	5
	AKS 04	102	35	194	210	50	50	5
Corner ( C )	AKC 01	25	35	74	210	50	50	5
	AKC 02	51	35	96	210	50	50	5
	AKC 03	76	35	123	210	50	50	5
	AKC 04	102	35	148	210	50	50	5

JO = Joint Opening    SH = System Height    SW = Sight Width    BO = Blockout (min.)

Key to System Features (Straight Application)

- 1. Continuous Stainless Steel Top, grade 304 or 316
- 2. Continuous Aluminum Frame, grade 6063-T6, Mill Finish
- 3. Concrete Screed (by others)
- 4. Continuous Neoprene Gasket
- 5. Allen Key fixing Hex. Head Countersunk screw
- 6. Secondary Seal to be fused with water proofing membrane

Key to System Features (Corner Application)

1. Continuous Stainless Steel Top, grade 304 or 316
2. Continuous Aluminum Frame, grade 6063-T6, Mill Finish
3. Concrete Screed (by others)
4. Continuous Neoprene Gasket
5. Allen Key fixing Hex. Head Countersunk screw
6. Secondary Seal to be fused with water proofing membrane
7. Continuous Steel Cap
8. Flat Head Concrete Screw with Plug (by others)
