

'Quarta' is a heavy duty, slip resistant rubber mat. The unique built-in ramp edge and puzzle edge interlocking design makes it the 'FIRST' choice for outdoor settings and a complete favorite for behind-the-bar counter applications and for boats.

'Quarta' can be supplied in different materials for various applications upon request. Select the material that suits your unique requirement.

*Nitrile Rubber: Mineral oil, chemicals, acids and alkali resistant, also suitable for workplaces in the food and chemical industry. Temperature range -30°C up to +100°C, fire retardant to BS (Class1). Withstands hot metal chips and cigarette burns.

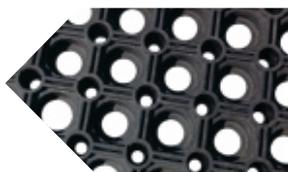

*EPDM Rubber: For extreme temperature. Temperature range 50°C up to +150°C

*Antistatic Rubber: Temperature range: -30°C up to +100°C

'Quarta' 9/10" (23mm) thick
Black color mat is available in
59" x 39-2/5" (1500mm x 1000mm)
47-1/5" x 31-1/2" (1200mm x 800mm)
