

'Quarta'

Is a heavy duty, slip resistant rubber mat. The unique built-in ramp edge and puzzle edge interlocking design makes it the 'FIRST' choice for outdoor settings and a complete favorite for behind-the-bar counter applications and for boats.

'Quarta'

It can be supplied in different materials for various applications upon request. Select the material that suits your unique requirement.

Properties:

Nitrile Rubber

Mineral oil resistant and resistant various chemicals, acids and alkaline, also suitable for workplaces in the food and chemical industry. Temperature range -30 deg. C up to +100 deg. C, fire retardant to BS (Class 1). Withstands hot metal chips and cigarette burns.

EPDM Rubber

For extreme temperature. Temperature range 50 deg. C up to +150 deg. C.

Antistatic Rubber

Temperature range -30 deg. C up to +100 deg. C

- Type : Natural Rubber, Heavy duty with built-in ramp edge.
- Application : External Primary Matting, Electrical Switch Rooms, Anti-Fatigue Mat, under Bar Counters, Safety Mat.
- Construction : Open
- Thickness : 9/10" (23mm)

Standard Sizes:

- 59" x 39-2/5" (1500mm x 1000mm)
- 47-1/5" x 31-1/2" (1200mm x 800mm)
- 23-3/5" x 15-4/5" (600mm x 400mm)

Ultra Brushes

In areas of high dirt concentrations, the brushes are an ideal addition to "Octamat Matting" system. By fitting the round brushes into every second hole, greatly improved cleaning properties are achieved, especially in areas subject to water, snow and sand.

Material:

The body of the brushes are made of plastic. The brushes are made of nylon 6.6

Colors

Black, Red, Green, Brown, Yellow, Blue and Grey

Weight

Approx. 6g.
