

'Sturdy'

This type of mats are made of a combination of tough yarns: polypropylene, polyamide, polyester and solution dyed nylon knotted and embedded into water resistant gel backing without any pattern making it more effective removing dirt and debris in any traffic directions.

'Sturdy'

It can also be used as entrance door mat or used it like loose area rugs. For best results, cover the entire entrance area with 'STURDY' mat from wall to wall.

'Sturdy'

It is recommended for heavy traffic and is easy to clean with vacuum or steam extraction. It is highly effective on Snow, Salt, Moisture and Sand.
